SHORT RADIAL LEVER FOR BRAKE AND CLUTCH MASTER CYLINDER

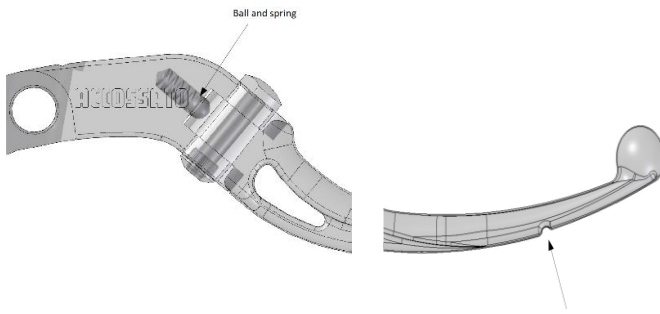

LONG RADIAL LEVER FOR BRAKE AND CLUTCH MASTER CYLINDER

OVERTURNING AND BRAKE-PROOF SYSTEM FOR ACCOSSATO FOLDING LEVERS

Accossato folding lever is united by a screw in stainless steel to the master cylinder where you can find a whole with a spring and a ball inside. In case of falling, ball works as a recall when the user or the pilot wants to take the lever back to its original position in case it has moved upwards or downwards.

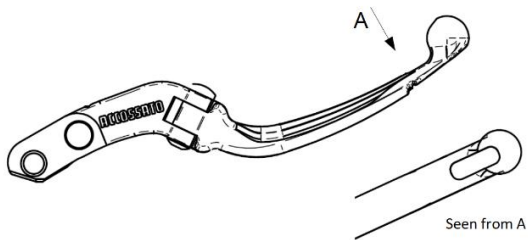

ACCOSSATO

ACCOSSATO "breakproof" system

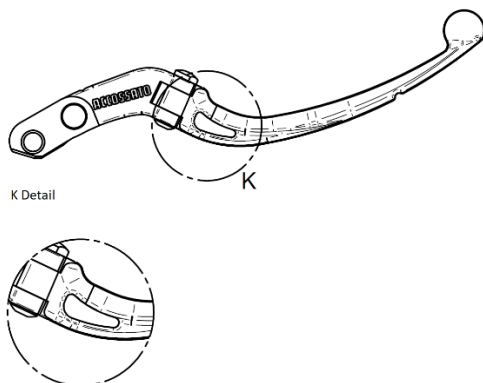

Meaning of "RST model" and "K model"

- RST Model

"RST" acronym is used for levers with a final hole

- K Model

ACCROSSATO

The acronym "K" is used when there is a lightening on the grip
