

# ***ACCROSSATO***

---

## **RACING GRIPS**

Accossato racing grips are the result of long studies and research with the major teams in SBK. The technology of these products allows the pilot to easy grip without a major effort.

### **How to mount Accossato grips**

- Remove the old grips (helping yourself with some compressed air).
- Pour some wated inside the grip and the handlebar with some alcohol.
- Insert the grip on the handlebar and push to the bottom.
- Let it dry for 24 hours before using the motorbike.
